OIL AND COLD WAX WORKSHOP 18+

Join in and find out what the buzz is about with cold wax. The emphasis of this fun workshop is to introduce the materials and techniques used in oil and cold wax in an environment that is encouraging and explorative. Unlike encaustic, cold wax is not heated; it dries much quicker than traditional oil paint. The beeswax in the cold wax does allow for some of the drawing in, scraping back and layering we associate with encaustic.
